Plymouth Industries, Inc. is a leading custom metal cart fabricator that specializes in paper core carts, paper tube carts, and certified lifted core carts.

If your manufacturing facility produces or works with paper or PVC tubing and cores, our custom cart and certified lifted cart solutions are exactly what you're looking for. Our carts are designed to accommodate lengths of up to 24', rigid or collapsible, stackable, and liftable.

Custom tube and core carts increase production efficiency by moving a large amount of product in a short time. Durable solid steel construction ensures cart longevity as well as increased safety and accident prevention by securing cores and tubing.

Features:

- Maximize storage density and efficiency
- Rigid or collapsible styles
- Stackable
- Durable – solid steel fabrication
- Prevent falling and accidents
- Certified in-house by professional engineers
- Load tested, proof tested by trained professionals
- Stress analysis

Contact us for a quote on your next core and tube cart.
